COMPILE BY:

ABUDULLAHI D.U. EZE & AFOLABI MOHAMMED IDAYET

ACQUISITION OF PETTY TRADING

Notion: There are bundles of petty trading you can start. The essence of this petty trading is to keep you striving and understanding the practical aspect of business while taking into consideration smaller profit you earn. Petty trading could be in form of kiosk where you can sell soaps, matches oil, Garri etc. Women also, can take this advantage to start this type of business and call customers' attention to patronize. The business could be started with small capital and can rapidly grow with good demand. Due to the small capital nature of the business foreign competitor products can pose dangerous competitive disadvantages to local ones. A minimum capital of N120.000 and above can be managed to start the business.

ACQUISITION OF PHONE ACCESSORIES

Notion: Phones are everywhere and it is a product that almost everyone is using daily. One can create a unique business idea out of phone industry, for example you can start merchandising phone accessories using local means different from what is obtained in the market. Most of the accessories are imported then why can't we start using light robbers, polythene bags to produce unique and local phone accessories. That is to say one can take the common business of phone accessories and add value to it by merchandising locally then turn your competitors to your customers.

The number of players in the business are in millions hence, when you start retailing for them, you will have a fantastic market thereby making huge money. Too much credit without Analyiss on profitability and repayment Schedule can erode your business existence. One can start with a capital of 2 million Risk: Naira and above.

ACQUISITION OF HOW TO MERCHANDISING BUSINESS

The world of merchandising is limitless even though the trade is one of the most accessible to the common people. Merchandising involves completing the commerce cycle by moving goods from their manufacturers through various middles-persons to the end users. In practice, the closer your entity is to the manufacture, the more leverage and financial reward you many expect. One may decide to be specific/target merchandiser by always approaching manufacturers for a deal to serve as one of its core distributors/agents.

As this market is generally congested and having lower margins by the day, success factors may include one's ability to mobilize a large number of continuous customers (clients) that can buy him/her better negotiation position with the manufacturer/sole distributors.

Notion: The idea is very simple and lucrative. It entails establishing network through continuous increase in visitors to your blog. This is a business for those who can read and write and at the same time having fashion of financial freedom, through blogging you can make fortune by monetizing your blog, you can sell affiliate products or market your own information resources on your blog. Remember this business is perfectly working by an increase number of people/visitors into your network. Blogging works through a hosted platform although there are free hosted platforms but it is always advisable to go for self hosted platforms if you are really serious about it. Extremely potential and marketable. The major risk attached to the business is proper information management, because it involves disseminating information thus, a blogger has to be careful of reliable and authentic information before releasing it on blog. It requires little or no capital start only your ability to read and write and manage computer or browse is your main capital requirement. Nonetheless, you need at least capital like N250,000 to do your company registration and equipment.

ACQUISITION OF INFORMATION TECHNOLOGY BUSINESSES

Businesses in the information technology industry are so popular and prominent in today's world of electronic communications breakthrough. The size of this market is on the increase locally and globally and still has enough space for new innovations. Participants may choose to provide core products and services, and may invest in providing only auxiliary/support services. In whichever case, an entrepreneur needs to acquire a certain level advantageously in the market. As a good number of SMES are everywhere in this industry, one has to be actively innovative and have the capability of promptly resolving customer needs/issues to successfully remain profitable in the market.

PROCEDURE AND ACQUISITION OF DATA/STATISTIC CONSULTANT

Notion: Data and information are most scientific resell as problem pave way to development and success as well as problem solution in every aspects of life. Without genuine data decisions cannot be made appropriately. Most activities, such as business activities, developmental activities, social activities etc depends heavily on raw data such as demographic data, psychographic data, financial data, quantitative and qualitative data for information to be gathered and useful. Statistics of such data/information could not be obtainable especially on issues regarding raw material usage, financial issues as well as peoples view and attitude towards a given sector/item/product.

Data/statistic consultancy is a high business that needs players in our territory. So many decisions are made with no regards to genuine source of data/and statistical information and guides. Therefore to emerge as a consultant of such business will be marketable, profitable and helpful. Data gathering and obtaining genuine data as well as baking up your stuff, will be quite challenging. it requires intellectual property.

AQUISITION OF RENT AND ESTATE VALUER, SURVEYOR

Notion: An estate value/surveyor a person who is Professionally allowed to carry on a survey on a property and value it accordingly. He is experienced person who objectively give a report on the value of a property landed or otherwise based on his knowledge skills, expertise on location, depreciation, appreciation, possible developments, threats etc that is attached to a given location/property which make it to be marketable and valuable. The idea is extremely rewarding due to large number of property transactions that are in the market. operational risk is also attached to the idea. Financial risk may also be attached because there may be lose of funds without recouping it in good time. the business requires professional input, CAC registration, office and office requirements as well as field equipment' s. It estimated to start up with a minimum of N 500, 000-above.

ACQUISITION OF MARKETING RESEARCH CONSULTANT

Notion: The idea entails conducting a comprehensive, we designed, and unique reports on a specific industry or product. The consultant must use real data to convince clients that his result are genuine and can be relied on. Marketing research can be done when a company wants to start a new product line, or want to expand its scope or penetrate a given territory or wish to know the problem regarding its product or services. It is an objective way of decision making process. It is very unique, marketable and profitable as well. Mainly operational and unavoidable risk are attached. Sometimes for you to discover the reality you must undergo a lot of sufferings and threats. Registration with CAC as well as office equipment are needed. It requires at least N300,000 - 1million to start the business.

ACQUISITION OF FINANCIAL ANALYST

Notion: Financial analyst is a person who is registered with financial associations and is licensed to practice as a financial consultant. He/she must be a person with unique financial knowledge and problem solving techniques. He/she render services like personal finance, corporate finance, credit management, retirement plan portfolio management, financial partnerships, investment analysis. The idea is unique and very marketable, because every company or investor must request for the services for him to sustain his investment.It is also less risky but attached with operational risk which requires of quality control at all time. The idea requires no capital, only professional expertise, personal development, and some equipment like computer is needed to kick start. You therefore need N200,000 to do so.

JURISPRUDENCE AND LEGAL SERVICES

Notion: Legal service is entirely professional, regulated and experienced way of rendering legal advice, filing and defending of law suits by a legal practitioner who is allowed by law to practice. The idea is extremely viable and potential,

because it entails rendering unique services that people can dare not to do for themselves. So people, often became obedient and respectful to the services. The idea also attracts a lot of challenges, - financially, operationally and socially. So many threats are attached to the idea especially if the practitioner contravenes ethical principles. For startup and in accordance with the ethics there must be registration with CAC and obtainance of professional license and other requirement. It is expected to start with N500,000 and above.

ENTREPRENEURIAL SKILL AND BUSINESS CONSULTANCY

Notion: Business consultant is a person who actively engaged in solving SMEs business problems. He/she also helps in ensuring a very good start up of business. Business consultant delivers services like feasibility study, business plan, risk management, corporate training on business development, idea creation, idea refurbishing as well as any other thing that help in upgrading business. The idea would be marketable especially in an area where there is good awareness of formal business activity. It is less risky but not without its operational or market risk. So a business consultant must be able to convince people to understand his services. As a business consultant you must invest in a continuous research and development. The business requires no or little capital, only skills, expertise and professional knowledge is required at the start.

ACQUISITION OF ACCOUNTING SERVICES

Notion: Accounting services are provided by professional accountants - those who are certified to render accounting services. The idea entails provision of accounting services such as fixing internal control system, books, and records, accounting procedures, accounting policies, computerizing accounting system etc. It also comprises of solving accounting problems, financial account, costing or training account staff. The idea is extremely welcomed in every society because so many companies fail or end up in financial problem due to lack of advisers in accounting. The accountant can start the idea as a part time and switch to full time business activity if he confirms the viability and prospects of the business. It is less risky. Nevertheless, there is operational risk attached i.e. possibility of rejection of clients if there is no qualitative services. The business requires very small capital that can buy a laptop, and some other gadget for startup. It only requires skills, expertise, professionalism and dedication. Therefore N200,000 can solve the problem.

ACQUISITION OF BOOK EDITING SERVICES

Notion: Book editing services requires professional competences in languages and writing kills. Book editing is a service of those who are capable to handle dynamism attached to error detection and procedure compliance. Book editor requires only some equipment to render his work successfully. Equipment such as computers, printers etc are needed. The idea can help other people to achieve their goals. it is therefore marketable and most importantly profitable. Less risky couple with serious challenge. It requires no capital only a computer and

expertise can help you start your business. A minimum of N250,000 is also needed for acquisition of computers and other equipment.

ACQUISITION OF GEOLOGICAL SERVICES

Notion: Geological surveyor is a person who undertakes a systematic examination of the possible outcomes of given resources beneath a given piece of ground for the purpose of establishing commercial viability of those particular resources. Geological services entail borehole survey, oil Survey gold survey, rock type survey, etc. Geophysical and geological surveys are also closely related fields that offer investigative services so as to avoid making decisions of huge investment on blind assumption if you want to be self reliant you can choose to read these fields and plan your future. It provides self reliance and benefits your society while making good earning. It takes personal sacrifices to establish the business up to a reliable level. Financial constraints are therefore involved. Professional input is mainly required here. Notwithstanding you require Some money for office accommodation, business registration. Furniture and equipment and the like. A minimum of N1.5million can help out.

ENTREPRENEURIAL ACQUISITION OF WRITING BUSINESS PLAN

Notion: A lot of businesses and Companies are desperately in need of this services as such one can pick a business niche by investing a talent into it. The idea about conducting business research on behalf of the client for monetary consideration. It is simple and money making business however, one can make as much money as possible even though it depends wholly on the number of client you are able to get into your network. Business plan is a research or information gathering about a proposed business/expansion so as to have a clear direction. The business will serve as a hub of employment generation and wealth creation. The business is seriously faced with competition and dynamic approaches. Moreover, compromise in quality can degrade the positioning in the customers' minds. The business requires no much capital other than some money for CAC registration and acquisition of computers, as well as office rental and furnishing. Therefore a minimum capital of N200,000 could serve the startup need.

ACQUISITION OF BUSINESS SCHOOL

Notion: Business nowadays is highly needed due to emergence of entrepreneur development. Business school idea involve a comprehensive learning package that offer so many businesses entrepreneurship, leadership marketing, finance, and marketing courses for students, small and medium scale entrepreneur.

In Nigeria, business is enormously needed in order to boost leadership and business awareness within our societies. The idea is very profitable and serves as a linkage to other businesses. Lack of qualified teachers can seriously affect the value of knowledge and can cause customers' disloyalty. A minimum capital of

N2.5m N5m can serve as a capital to run the startup of such business depending on the location and economic condition.

ACQUISITION OF SOFTWARE TRAINING CENTRE

Notion: Software normally used to be developed to serve different industries, project and purposes. There are several customize software to serve different purposes such as statistic software, accounting software, financial software, medical diagnosis software etc.

You may wish to start a training centre of particular software which you are expert on, and which you confirm its viability Example. accounting software such as quick book, Peachtree, tally, MYOB etc. The idea is marketable and has higher return on investment. It also enables people and business to solve problems easily. Continuous updates are needed otherwise you will be outdate in the industry. To venture into these businesses you need to be well equipped with expertise, equipment, software and updates, as well as location and furnishing. A minimum of N1.5m 3million can start the venture

Notion: Fashion design is ranked as one of the most marketable, profitable and reliable business in the world that facilitate/encourage self-reliance and creativity. Most people who excel in the industry and are creative people with good vision, so many people need to venture into fashion and design but the main question is who will coach them well. So if you think you can train people pretty well on fashion and design, the idea is here for you. But make sure your school embarks on high creativity ideas. Societal benefits as well as good business reputation are attached to the establishment of the centre. It is mostly affected by technical improvements and competition. A capital of N1.5m -3m is required to cater for rent, furnishing, leaning materials, works equipment and other startup cost.

ACQUISITION OF GENERAL SERVICES BUSINESS

The general services industry covers a number of businesses cutting across almost all sectors of the economy. For a good number of start-up, starting with the provision of services saves the day. Historically, a good number of entrepreneurs started with the provision of services so as to raise the needed capital for their dream products.

In the services industry, there exist a good number of business options that need less financial capital and in most cases relying heavily on intellectual capital of the owners and managers. This is why fresh university graduates will find it a lot much easier to Start businesses in this category. Key driver of success in the service industry is the ability to provide the required services with consistency of standard/quality and networking capability of the entrepreneur.

ACQUISITION OF MULTI-LEVEL-MARKETING

Notion: Multi level marketing (MLM) is considered as one of the most fastest growing and thriving business in the world. Multi level marketing entails a strategy that companies use to boost sales by encouraging existing distributors to recruit additional distributors for a fee.

The distributors are categorized as up line and down lines. Direct sales companies have different multi level marketing strategies. Products and services are patronized at every stage, day, time, and locations in order to meet up with the incentives promised by the company.

Usually financial and nonfinancial benefits such as car award, electronic award, loan, free trips and houses are used as incentives for the patronage. Multi-level marketing companies get their reward by changing other people's lives positively. The more distributors gain the better the company gain most. Is attached with people involvement which can cause too much overstatement that mislead users. this action usually affects the business. Depending on the type of company, demography and other issues to look at, the MLM strategy can be applied with a minimum cost of N10million and above to cater for software, MLM chart of remuneration, marketing plan document and trips.

ACQUISITION OF WAREHOUSING AND STORAGE COMMODITY

Notion: This idea covers the ability of a company to provide authentic storage facility to customers. The storage warehouse can be built for grains, food, raw material, industrial raw material chemicals, etc.

Warehousing requires initial structure and simple management. It is a very good source of generating revenue and keeping money to work for you, instead of idle cash. Very potential especially in an area where industrial, commercial and agricultural activities are taking place. Warehouse can depreciate over time and attract no customers if it becomes a hub for rats and dirt' s. A minimum capital of N2-10 million is needed to develop and equip a warehouse for better usage.

ACQUISITION OF DISTRIBUTORSHIP

Notion: Many people complain of getting startup capital when they want to embark on a venture. Now here is an absolute treatment for the Constraint of startup capital. The simplest way this can work is by Creating a wide network and platform where you can advertise different kind of products. Thus, you can become a distributor for many companies without involving a penny from your pocket because you are able to establish a sound platform for marketing, hence many Companies will be supplying their product through your network and as Such you can be generating cool money. This is a short term money making business; one can be rich and richer because you are into daily money making transactions. Lack of good management system can ruin the entire investment. One can start with absolutely zero (0) capital but one need to start up with some money for your betterment.

ACQUISITION OF SHOE MAKING FOR CHILDREN

Notion: Shoes are essential item demanded by different demography of individuals ranging from adults to kids, from male to female from. wealthy to poor people. Shoes are made from leather materials with the aid of equipment and machinery such as cutting machine, skiving machines, starching machine and gums etc. Shoes undergo process such as designing, cutting and sizing, sewing and gumming, coupling parts, polishing and finishing. For packing a niche, baby shoes can be of great potentials. Shoe making is seen to be very marketable due to its ever increasing demand by the target users. Mostly financial constraint as well as competition with foreign products affects the local shoe makers. For shoe makers to start up with modern machinery it requires a minimum of N1.5million N5million to cater for machinery and material acquisition.

ACQUISITION OF BUSINESS LINKER

Notion: This business idea entails the use of your social network/linkages to join two parties together for business purpose. The linker acts as intermediary between the buyer and the seller or service provider. In return the linker asks for a percentage out of the transaction by signing an M.O.U. between him and either of the parties. The business idea is very rewarding because you only have to convert your personal relationship property into business relation and get reward out of it. So the more you are connected and trusted by people, the more likely you get prospect and get rewarded. Probability of betrayal and losing the whole or part of your reward. If you are not smart to draft an M.O.U or you start the business without mentioning that you would be rewarded. The business require almost zero monetary capital. All needed is your personal relation as your goodwill/capital. But you need at least N50,000 for the registration of the company.

ACQUISITION OF MODERN WASTE PACKING

Notion: Normally waste dumping centres are often located a bit far from residential areas and most home owners do not like to take waste to those centres themselves, they prefer engaging someone to do it for them. One can take this opportunity as his business where you can have house clusters and be providing this service for them.

This idea is very good because it will help in making lives better, you can earn a living and create jobs for others. Major equipment's are drums safety kits and a van. You can even start with a wheel barrow. It is worth doing because it is a business that you can start with no capital and later expand to make as much money as one can never imagine. The risk has to do with the hygiene. N20,000 - above would be sufficient enough to start making money in this business.
